2. Citations and explanations

1. The invention concerns a radio communications device.

2. Document WO0201670 is the closest prior art. It discloses a radio communications device and a coupling structure according to the preamble of claims 1 and 28.

3. **Problem:**

How can a camera be accommodated in a radio communications device.

4. **Solution:**

The solution proposed in claims 1 and 28 involves an inventive step owing to the feature according to which the camera is disposed in an existing coupling chamber for a flat antenna.

5. Although radio communications devices with cameras are known, the prior art according to the search report offers nothing to suggest the above solution.
